**ACTING TOGETHER
FOR A LIVING AND
SHARED MOUNTAIN**

Created in 2012 on the initiative of the Auvergne-Rhône-Alpes Region and companies in the sector, the CLUSTER MONTAGNE is the network in mountain tourism development.

Its raison d'être: acting together for a living and shared mountain.

For all its members and partners in France and internationally the CLUSTER MONTAGNE provides strategic intelligence, networking, training and support for innovation, sustainable development.

The CLUSTER MONTAGNE gathers companies, manufacturers, equipment suppliers, design offices, services, start-ups, ski resorts, local authorities, professional institutions, research sectors and training establishments.

Its strategy, which focuses on the challenges facing mountain tourism (sustainability, interactivity, safety, consultation, accessibility, fun and performance), offers professionals a forward-looking vision and innovative, pragmatic solutions for the sustainable development of mountain tourism.

In this way, the CLUSTER MONTAGNE contributes to the sustainable performance, appeal and transformation of mountain tourism destinations.

In 2025, it will have more than 235 members, specialising in 8 areas of expertise:

Real-time supervision of chairlifts and gondolas.

Since 2015, SIVAO uses AI to enhance safety and operation of ropeways. Simple and adaptable, it assists the operator and the customer for safe boarding and reduces costs linked to:

- risky situations/litigations,
- operations in providing real-time information on flow and detailed line occupancy (distinguishing adults, children, disabled and bicycles).
